- What tasks I will have to handle

## 6 Conclusion

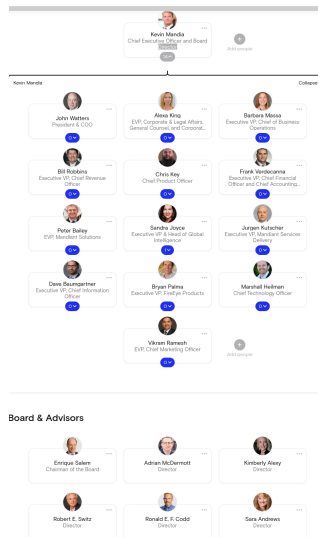

# Introduction

Why I chose to work there?

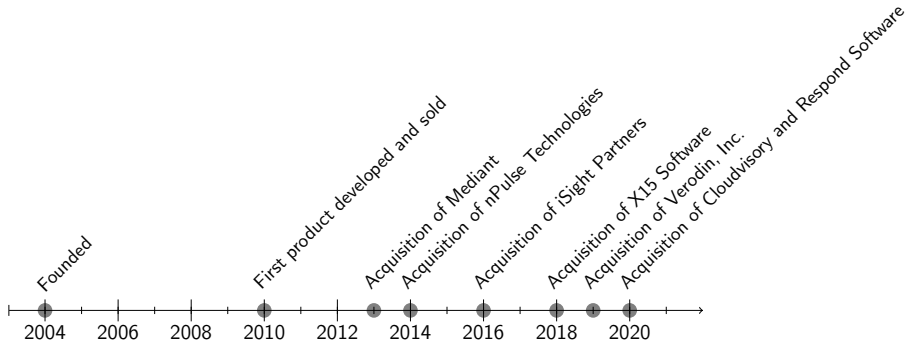

- Multinational company with Japanese branch
- Leading in cyber-security researches and vulnerability assessments
- Major 0-days discoveries and security mitigations

# General Information

- Headquarters in Milpitas, California
- 3,400 employees
- Privately owned
- Products:
  - ▶ Cyber Security Hardware and Software
  - ▶ Email Security
  - ▶ Endpoint Security
  - ▶ File Security
- Services:
  - ▶ IT Security Consulting Services
  - ▶ Incident Response
  - ▶ Vulnerability Testing
  - ▶ Preparedness Assessment

# History of the Company

- Mediant: \$1 billion
- nPulse Technologies: \$60 million
- iSight Partners: \$275 million
- X15 Software: \$20 million
- Verodin, Inc.: \$250 million
- Cloudvisory: \$13.2 million
- Respond Software: \$186 million

# Changes in the Group's Structure

No major changes except for the step down of various CEO:

- Aziz Ashar stepped down as CEO in 2012
- McAfee CEO David DeWalt took his place
- David DeWalt stepped down as CEO in 2016
- Mediant CEO and former FireEye President Kevin Mandia took his place

# My Role in the Company

Most colleagues are going to be vulnerability assessment specialists.

What I will be doing:

- Intern-related tasks
- Security-related researches
- Basic security-related software solutions

What I aspire to become:

- Blue Team member - Security Mitigations Implementations
- Purple Team member - Cyber-Defense Solutions Development

# Conclusion

- Continuous investments = wider range of products
- Wider range of products = Possible diversification & innovation

*Thank you for listening.*
